

Align Healthcare

Covid-19 Policy – Clients/Patients (last updated 22/02/22)

Company Obligations

We will keep all Align therapists updated on actions being taken to reduce risks of exposure in the clinic. Your therapist will then pass this on to you.

Health & Safety

We are a medical healthcare setting and so our infection control policy is still in place until further notice. We require you to observe the following:

- Regularly cleaning hands with soap and water (minimum 20 seconds) as well as using alcohol-based hand gel on arriving and leaving the clinic.
- Please do not attend the clinic if you are feeling at all unwell, have a temperature, a new persistent cough, severe fatigue, chest tightness, loss of taste/smell or any associated covid-19 symptoms, please rearrange the appointment for a later date. Your therapist will triage you 24 hours before your appointment.
- After 24th Feb 2022, we still require clients/patients wear their own face covering upon entering/leaving the clinic and throughout their session, as per the guidance for all healthcare settings. Your therapist may still be wearing other PPE also.
- If a tissue is used, please dispose of it immediately and wash your hands/use hand gel.
- The waiting area is open – please maintain social distancing and wear your mask whilst in communal areas. Please use the hand sanitiser next to the front door.

We all share the responsibility for this and request that you follow both our procedures and our therapist's procedures.
